The Teaching and Technology Series introduces faculty, post-doctoral fellows, and graduate to current and emerging technology that can enhance teaching and learning. Graduate students seeking to fulfill the professional development requirement of their school or to get Instructional Internship credit need to submit a brief reflection form within one week after event date: <http://crte.ucmerced.edu/workshopreflection>. If you have any questions about this series, or if you're interested in helping plan and present future workshops, please contact Mike Truong (mtruong@ucmerced.edu).
